

# LEADING DISTRIBUTOR OF SCHEBLER GENERATOR EXHAUST SYSTEMS FOR MISSION-CRITICAL BUSINESS NATIONWIDE

With more than 20 years of experience delivering mission-critical projects, UEP has partnered with Schebler Chimney Systems to provide expert solutions for critical exhaust venting needs across the country.

Our team of subject matter experts collaborate with Schebler engineers to develop custom factory fabricated generator exhaust and engineered stack systems that provide safe and reliable service in mission-critical environments such as:

- Data Centers
- Semi-Conductor Chip Manufacturers
- Other Advanced Manufacturing Facilities

More precise and affordable than field-fabricated systems, Schebler's UL listed and warrantied pre-fabricated generator exhaust systems allow our team to build custom, best-in-class solutions that meet demanding requirements and exacting standards —on schedule and on budget.

We understand the unique challenges and potential obstacles in these specialized projects, and we're expert-level problem solvers known for identifying and resolving deficiencies before construction begins. Work with UEP and discover how our installation experience in 30+ mission-critical environments gives our customers a crucial advantage.

## UEP's Proven Process

Every UEP project is guided by standardized policies and procedures honed over decades of experience and a dedication to a superior customer experience. Our precise attention to detail in this proven process guarantees that every solution is **built-to-order and built-to-last**.

# The UEP + Schebler Advantage

Custom Prefabricated Solution, Unmatched Customer Service

Together, UEP and Schebler Chimney Systems provide a superior customer experience and industry-leading expertise. We offer factory-built, UL-listed exhaust systems with custom attention from trusted subject matter experts to deliver your project on budget and on schedule.

## Prefabrication

- Superior quality control
- Faster and more efficient to install
- Lower on-site costs
- UL Listed and code-compliant
- Modular design

## Custom Engineering

- Custom-made to specific requirements
- 2D and 3D detailed design drawings
- Field measurements and precise calculations
- Comprehensive submittals
- Purpose built for a wide range of industries and applications

## Ease of Installation

- Produced in a U.S. factory to UL standards
- Mechanical connections – no on-site welding
- High-quality stainless steel material
- No additional insulation or wrapping
- Reduced labor and on-site costs

## Expertise & Proven Service

- Schebler is an industry leader in prefabricated exhaust systems and engineered stacks
- UEP has 20+ years of turnkey venting solutions experience

**Our Guarantee – We Don't Walk Away Until It's RIGHT!**
